Panasonic

Power Choke Coil (Automotive Grade)

Series: PCC-M0854MS (MC) PCC-M1050MS (MC)

High heat resistance and high reliability Using metal composite core (MC)

Industrial Property : patents 18 (Registered 10/Pending 8)

Features

- The vibration-resistant structure achieves a vibration acceleration-resistance of 50 G or higher in 150 °C environments
- Reduce core loss in high frequency band (More than 2 MHz)
- High heat resistance
 : Operation up to 150 °C including self-heating
- SMD type
- High-reliability
- High vibration resistance as result of newly developed integral construction; under severe reliability conditions of automotive and other strenuous applications
 Excellent inductance stability using ferrous alloy magnetic material
- High bias currentTemp. stability
- : Excellent inductance stability over broad temp. range

: Low RDC of winding and low eddy-current loss of the core

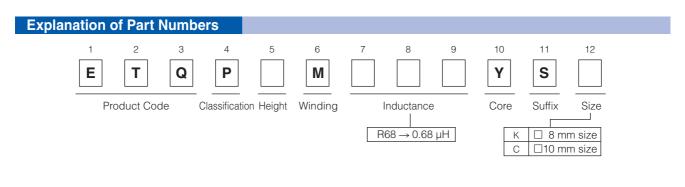

- Low audible (buzz) noise : New metal composite core technology
- High efficiency
- Shielded construction
- AEC-Q200 Automotive qualified
- RoHS compliant

Recommended Applications

- ECU placed in the engine itself, mechanical-electrical-integrated ECU
- Noise filter for various drive circuitry requiring high temp. operation and peak current handling capability
- Boost-Converter, Buck-Converter DC/DC

Standard Packing Quantity (Minimum Quantity/Packing Unit)

• 1,000 pcs/box (2 reel)

Temperature rating

| - | | | | | |
|-------------------|---------------------|---|--|--|--|
| Operatin | g temperature range | Tc : -40 °C to +150 °C(Including self-temperature rise) | | | |
| Storage condition | After PWB mounting | IC: -40 C to + 150 C(including self-temperature rise) | | | |
| | Before PWB mounting | Ta : -5 °C to +35 °C 85%RH max. | | | |

| NEW | ETQP5M2R5YSK | 2.45 | ±20 | 7.40 (8.14) | ±10 | 12.0 | 14.1 | 21.7 | PCC-M0854MS [8.5×8.0×5.4(mm)] |
| | ETQP5MR68YSC | 0.68 | | 1.66 (1.83) | | 27.0 | 32.3 | 40.0 | PCC-M1050MS [10.9×10.0×5.0(mm)] |

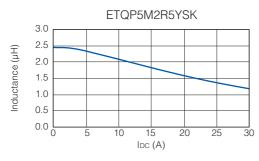

(*1) Measured at 100 kHz.

(*1) Measured at 100 kHz.
(*2) DC current which causes temperature rise of 40 K. Parts are soldered by reflow on four-layer PWB (1.6 mm FR4) and measured at room temperature. See also (*5)
(*3) DC current which causes temperature rise of 40 K. Parts are soldered by reflow on multilayer PWB with high heat dissipation performance. Note: Heat radiation constant are approx. 30 K/W measured on 8.5×8.0×5.4 mm case size and approx. 20 K/W measured on 10.9×10.0×5.0 mm case size. See also (*5)
(*4) Saturation rated current : Dc current which causes L(0) drop -30 %.
(*5) Within a suitable application, the part's temperature depends on circuit design and certain heat dissipation conditions. This should be checked in a worst case operation mode.

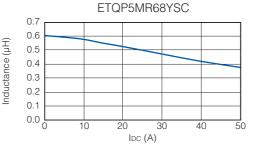

conditions. This should be double checked in a worst case operation mode. In normal case, the max.standard operating temperature of +150 °C should not be exceeded. For higher operating temperature conditions, please contact Panasonic representative in your area.

| PCC-M1050MS | ETQP5MDDYSC | 1,000 pcs / box (2 reel) | 500 pcs |

Design and specifications are each subject to change without notice. Ask factory for the current technical specifications before purchase and/or use Should a safety concern arise regarding this product, please be sure to contact us immediately. Guidelines and precautions regarding the technical information and use of our products described in this online catalog.

- If you want to use our products described in this online catalog for applications requiring special qualities or reliability, or for applications where the failure or malfunction of the products may directly jeopardize human life or potentially cause personal injury (e.g. aircraft and aerospace equipment, traffic and transportation equipment, combustion equipment, medical equipment, accident prevention, anti-crime equipment, and/or safety equipment), it is necessary to verify whether the specifications of our products fit to such applications. Please ensure that you will ask and check with our inquiry desk as to whether the specifications of our products.
- The quality and performance of our products as described in this online catalog only apply to our products when used in isolation. Therefore, please ensure you evaluate and verify our products under the specific circumstances in which our products are assembled in your own products and in which our products will actually be used.
- If you use our products in equipment that requires a high degree of reliability, regardless of the application, it is recommended that you set up protection circuits and redundancy circuits in order to ensure safety of your equipment.
- The products and product specifications described in this online catalog are subject to change for improvement without prior notice. Therefore, please be sure to request and confirm the latest product specifications which explain the specifications of our products in detail, before you finalize the design of your applications, purchase, or use our products.
- The technical information in this online catalog provides examples of our products' typical operations and application circuits. We do not guarantee the non-infringement of third party's intellectual property rights and we do not grant any license, right, or interest in our intellectual property.
- If any of our products, product specifications and/or technical information in this online catalog is to be exported or provided to non-residents, the laws and regulations of the exporting country, especially with regard to security and export control, shall be observed.

<Regarding the Certificate of Compliance with the EU RoHS Directive/REACH Regulations>

- The switchover date for compliance with the RoHS Directive/REACH Regulations varies depending on the part number or series of our products.
- When you use the inventory of our products for which it is unclear whether those products are compliant with the RoHS Directive/REACH Regulation, please select "Sales Inquiry" in the website inquiry form and contact us.

We do not take any responsibility for the use of our products outside the scope of the specifications, descriptions, guidelines and precautions described in this online catalog.
